Subject: Proposed schedule for community meetings for Ethylene Oxide outreach

Lourdes and Tonya,

We are proposing the following schedule for community outreach events/webinars to disseminate specific information about ethylene oxide emissions in communities near 8 facilities listed I the Management Alert from the EPA Office of Inspector General (March 2020).

July 27: Shell Technology Center, Houston, TX
July 29: Evonik and Dow/Union Carbide, Reserve, LA
August 3: Sasol, Lake Charles, LA
August 5: Indorama, Port Neches, TX
August 10: Texas Eastman, Longview, TX
August 12: BCP Ingredients and Taminco, St. Gabriel, LA

Please let me know by Monday, June 28, 2021, if you would like to alter the schedule. If you know of any major event in any of these areas that would reduce our audiences, please let us know. We can adjust the schedules. We will begin planning the outreach, including meetings with local government officials, community leaders, and the industries.

Thank you for your assistance on this project. I appreciate your knowledge of your communities.

Fran
